Prior approval, as used in this guidance, means the advance written approval of a specific cost or action to a particular federal award, by an authorized official of the sponsoring entity. Written approval must be in the form of a letter/memo provided as an email attachment or hard-copy from the authorized official; verbal approval during a telephone or in-person conversation is not sufficient. For Federal awards, the authorized official is typically a sponsor Grants Management Officer (GMO) assigned to the award.

The Uniform Guidance (UG), effective as of December 26, 2014, contains many of the same prior approval requirements included previously in OMB Circulars A-110 and A-133. UG § 200.407 contains a complete list of items related to seeking prior approval by the Federal agency. The table below provides general guidance for some of those items and is not intended to be comprehensive.

It is important to carefully read the award agreement and all terms and conditions to determine prior approval requirements or waivers specific to a particular award. Additionally, all individuals involved must abide by applicable University policies and procedures. Explicit inclusion of the items below in the NOGA or the approved budget may be congruent with obtaining Prior Approval. If inclusion is after-the-fact, separate written approval is required.
